April 14, 2010

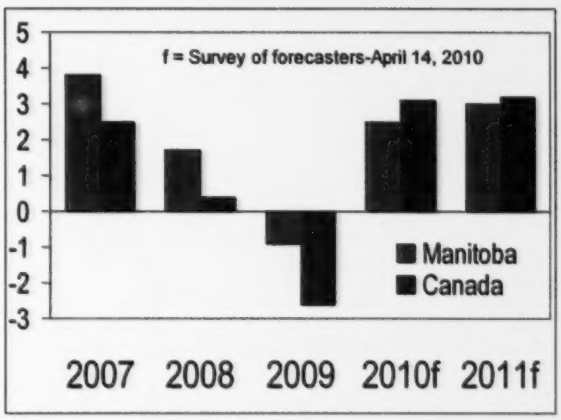
Manitoba Economic Highlights

Economic Overview

Real Gross Domestic Product

- The Manitoba Bureau of Statistics estimates that Manitoba's real GDP contracted by 0.9% in 2009 while Statistics Canada estimates that the Canadian economic shrank by 2.6%.
- After 4 years of outperforming the Canadian economy, in 2010, the Manitoba economy is forecast to grow 2.5% below Canada's 3.1% growth.
- In 2011, the Manitoba economy is forecast to grow 3.0% slightly below Canada's growth of 3.2%.

Real GDP (% Change)



Consumer Price Index

- In the first two months of 2010, the Manitoba CPI increased 1.5% compared to the 1.7% Canada increase. Energy (6.6%) has the largest increase while shelter declined 1.3%.
- In 2009, the Manitoba CPI increased 0.6% compared to the 0.3% national increase. Food (5.3%) has the largest increase while energy declined 11.4%.

- Manitoba's real GDP growth contracted 0.9% in 2009 substantially better than the 2.6% decline for Canada.
- Manitoba real GDP economic performance exceeded Canadian performance for 4 consecutive years from 2006 to 2009.
- Manitoba's population increased by 16,435 in the year ending January 1, 2010, the best performance since at least 1972.
- Manitoba outperformed the national economy in virtually all of the major economic indicators in 2009.
- In 2009, Manitoba had the second lowest unemployment and youth unemployment rate.
- In 2009, there were only 65 business bankruptcies in Manitoba, the lowest number since 1977.

Labour Market

Employment

- In the first three months of 2010, Manitoba's employment increased by 6,900 or 1.1% above the national increase of 0.4%.
- In 2009 Manitoba's employment increased by 200 compared to a national decrease of 276,900. Manitoba was one of only three provinces to post an increase in employment last year. Employment

Employment (% Change)

	2009	2010ytd
Manitoba		
Total Employment	0.0	1.1
Full-Time	0.1	(0.3)
Part-Time	(0.1)	7.6
Canada		
Total Employment	(1.6)	0.4

Note: Changes are calculated relative to the corresponding period in the previous year.

Unemployment Rate

- In the first three months of 2010, Manitoba's unemployment rate was 5.3%, second lowest behind Saskatchewan. The youth unemployment rate was 10.4%, also second lowest in Canada.
- Historically, Manitoba's unemployment rate has averaged 2.0 to 2.5 percentage points below Canada. In 2009, this spread increased to 3.1 points.
- From 1998 to 2009, Manitoba had the lowest annual unemployment rate among provinces five times, and the second-lowest rate five times.

Average Weekly Earnings

- In January 2010, average weekly earnings in Manitoba were up 0.4%, below Canada's increase of 2.1%.
- In 2009, average weekly earnings in Manitoba were up 2.8%, above Canada's increase of 1.6% and fourth highest among provinces.

Population

- As of January 1, 2010, Manitoba's population stood at 1,228,964, a one-year increase of 16,435 persons. This 1.4% increase was fourth best among provinces.
- The official population for a year is based on July 1st which for Manitoba in 2009 was 1,221,964, an increase of 1.3%
- The most significant factor driving Manitoba's population growth is the Provincial Nominee Program. Since it began immigrants entering Manitoba under PNP has steadily increased. In 2009, 13,517 immigrated to Manitoba the highest level since the 1950s.

Net Migration

- In the year ending January 1, 2010, 11,029 more people moved to Manitoba than left.
- During the same period, net international in-migration totaled 11,946, more than the net inter-provincial out-migration of 1,568. This is the smallest out-migration since 1985.

Economic Activity

Manufacturing Sales

- In 2009, Manitoba manufacturing sales decreased 11.0% to $14.6 billion. Canadian sales declined 17.3%. Manitoba's performance bettered the national average for the ninth consecutive year.
- In 2009, three Manitoba industries increased sales led by electrical appliances (14.4%) and machinery (1.2%) while eleven industries declined with primary metals, printing, wood and paper industries leading the losses.
- In the first month of 2010, Manitoba manufacturing sales declined 9.4% compared to an 8.6% national increase. Primary metals recorded its first year-over-year increase since October 2008.

Industries with Strongest Growth in the Value of Manufacturing Sales (% Change)

	2008	2009
Elec. Appliances.	7.7	14.4
Machinery	29.7	1.2
Petroleum & Coal	30.8	0.3

Farm Cash Receipts

- **Note: at this time Statistics Canada is not planning on releasing the 2009 fourth quarter farm cash receipts data until May, 2010.**
- In the first three quarters of 2009, Manitoba cash receipts were unchanged at $3.6 billion.
- Crop receipts increased 2.7% led by vegetables (13.7%) and oilseeds (9.5%). Livestock receipts were up 1.6% on the strength of an 11.5% increase in hog receipts. Direct payments declined 27.7%.
- Preliminary estimates by the Manitoba Bureau of Statistics indicate that Manitoba annual cash receipts increased 3.8% in 2009 to $4.9 billion.

Note: Changes are calculated relative to the corresponding period in the previous year.

- MBS estimates that crop receipts were up 1.4% with weakness in wheat and canola offset by gains in other crops. Livestock receipts are estimated to have risen 0.4% with weakness in cattle offset by strength in hog receipts. Direct payments are estimated to have risen 39.3%.

Farm Cash Receipts (% Change)	2008	2009
Canola	35.9	(8.7)
Wheat	29.0	(5.7)
Hogs	(13.5)	9.4
Cattle	3.4	(9.0)

- Agricultural diversification has altered the structure of the sector. In 1990, wheat accounted for 29% of farm cash receipts but by 2009 only 15.8%. In 2009, the largest receipts source was canola (18.6%) followed by wheat, hogs (15.4%) and cattle (9.6%).

Retail Sales

- In January 2010, Manitoba retail sales increased 4.1%, slightly below the Canadian increase of 4.2%. Manitoba sales rose on the strength of gasoline (15.2%), hardware garden and building supplies (13.3%) and pharmacies (10.8%).
- In 2009, Manitoba retail sales declined 0.9% better than the 3.0% decline in Canada. The decline in 2009 retail sales were led by gasoline (-10.7%) and motor vehicle (-6.8%) sales. Pharmacies (9.1%), other stores (8.3%) and department stores (5.2%) have the largest increases.

Investment

- Statistics Canada's Private and Public Investment Survey from February 2010 shows that Manitoba's 2009 capital investment increased 4.0%, second highest among provinces. Manitoba was one of only four provinces to have an increase in investment in 2009. Investment in Canada declined 11.4%.
- The Survey shows that Manitoba's private investment decreased 8.7% less than half the national decline of 17.6%. In 2009, private capital investment accounted for approximately 63% of capital investment in Manitoba.
- Manitoba's public investment increased 36.1%, second highest among the provinces and significantly above the 13.4% increase in Canada.
- A number of major investment projects were underway in 2009, including the Winnipeg Floodway expansion, the Wuskwatim hydro-electric dam, the Keystone Pipeline and a new airport facility.
- In 2010, capital investment is projected to decrease 1.1% below the Canadian increase of 4.4%. Manitoba's private investment is projected to decrease 7.8% and public investment to increase 10.3%.

Housing Starts

- In 2009, Manitoba housing starts declined to 4,174 units, a 24.6% decrease and better than the 29.4% national decline.
- In 2009, Manitoba single starts are down 17.6% while multiples have declined 38.7%.
- The 4,174 housing starts in Manitoba in 2009 is the lowest level since 2003 but is still better than any other year since 1988. Housing starts in Canada declined 29.4% with single-detached starts decreasing 18.8% while multiple starts were down 37.7%.
- In the first three months of 2010, Manitoba urban housing starts increased 61.4% while Canadian starts were up 48.1%. Manitoba single starts rose 27.0% while multiples increased to 323 from 133 in 2009.

Housing Starts (All Areas) (% Change)	Manitoba	Canada
2006	6.3	0.8
2007	14.1	0.4
2008	(3.5)	(7.6)
2009	(24.6)	(29.4)

Note: Changes are calculated relative to the corresponding period in the previous year.

Building Permits

- In the first two months of 2010, the value of Manitoba building permits decreased 3.2%. Permits in Canada were up 34.7%.
- The value of Manitoba residential permits increased by 49.7% while non-residential permits declined -46.8%. The non-residential decline was across all three categories
- The value of permits in Winnipeg rose 23.1%% while outside of Winnipeg they decreased 35.2%.
- In 2009, the value of building permits in Manitoba decreased 4.6%. Non-residential permits were up 16.1% while residential permits decreased 14.7%. Canada permits were down 13.3%.

Bankruptcies

- In January 2010, business bankruptcies increased from 5 to 7, or 40%, in Manitoba, and declined 21.0% in Canada.
- In January 2010, consumer bankruptcies decreased 14.6% in Manitoba, and 11.9% in Canada.
- In 2009, business bankruptcies decreased 36.9% in Manitoba, and declined 12.1% in Canada. Consumer bankruptcies increased 20.6% in Manitoba below the 28.4% increase in Canada.

Foreign Merchandise Exports

- In the first two months of 2010, Manitoba exports decreased 17.2%, while Canadian exports were up 3.5%.
- In the first two months of 2010, Manitoba's U.S. exports decreased 18.9% while non-U.S. exports were down 13.3%.
- In 2009, Manitoba exports decreased 19.0%, while Canadian exports were down 26.6%. Manitoba's U.S. exports decreased 20.7% while non-U.S. exports were down 15.2%. Commodity exports were particularly weaker.

Foreign Merchandise Exports (% Change)	2009	2010ytd
All Countries	(19.0)	(17.2)
U.S.	(20.7)	(18.9)
Non-U.S.	(15.2)	(13.3)

Electricity Sales

- In the first two months of 2010, the value of electricity sales declined; mild weather conditions and the rise in the Canadian dollar contributed to the decline in sales.
- In 2009, the value of Manitoba electricity sales declined. Domestic sales increased while exports were down.
- Approximately 80% of export sales are to the United States with the balance to other Canadian provinces. Export sales to the U.S. are priced in $US; consequentially the decline was substantially influenced by the rising Canadian dollar.
